Dear Sir.

I heard your conversation on the Jack McKinney program W. C. A. U. Phila. Wed 7th after 10. Pm in regards about the Warren report. I did not read the report and will not ever. I told my wife when it was reported there was going to be a commision formed and Warren was to be the head of it. That the report would be a farce, which is true. I have read your first book Whitewash and of all the books published in regards to the death of my Great and beloved former President John F. Kennedy, Your book is the only one that gives a person the most information. And my wife and I hope you can bring the Congress and others out into the open whith the true facts of the death of my President;

I believe that you are the only one responsible in getting things moving. God Bless You and yours. I listened to Jack McKinneys program Tuesday evening after 10 Pm and a question was asked what did Jack think of you and your book, And he said that you of all the writers, you gave the most true facts and knew what you were talking about. If it is possible would you please send me the second story on Whitewash When the then Senator Kennedy was running for the Nomination in 1960 I have a clipping from a newspaper about a person in another state saying that they didn't want John F. Kennedy a catholic President of the U. S. A. This person also said that Nixon had always been this persons favorite. Of all the papers and books that I have read this persons name isn't in them. could this person have had anything to do with the death in some manner? (Will close now, With lots of luck in your endevers.
